

Excel, Power BI & Tableau Integration Brochure

From Data to Decision

- Connect Smarter
- Visualize Seamlessly
- Deliver Unified Insights

Audience

Modern organizations no longer rely on a single tool for analytics—they rely on integration.

Excel remains the foundation of business data; Power BI delivers interactive analytics; Tableau brings world-class visualization and storytelling.

This training shows you how to connect, synchronize, and leverage all three tools for a complete data intelligence workflow.

You'll learn how to move from spreadsheets to dashboards to strategic insights, ensuring your reports stay consistent, automated, and visually powerful.

Ideal for:

- Data Analysts & Business Intelligence Teams
- Accountants, Financial Analysts & Business Planners
- HR & Operations Managers
- Sales, Marketing & Strategy Teams
- Project Managers, Consultants & Entrepreneurs
- Anyone who wants to unify Excel, Power BI & Tableau for professional analytics

Course Description

The Excel–Power BI–Tableau Integration Mastery Program is designed to build your skill in end-to-end analytics integration.

You'll learn how to prepare and model data in Excel, visualize and analyze in Power BI, and then elevate storytelling with Tableau.

This hands-on training helps you create a unified reporting ecosystem, allowing data to flow seamlessly across tools—from raw Excel files to dynamic Power BI dashboards and stunning Tableau visuals.

By the end of the training, you'll be able to:

- Build automated pipelines between Excel, Power BI, and Tableau
- Maintain data consistency across platforms
- Design high-impact, interactive dashboards for decision-makers
- Present unified insights that drive strategy and innovation

Course Outline

Data Analysis Foundations with Excel

Data Modeling and Transformation for BI Tools

Building Interactive Dashboards with Power BI

Advanced Data Visualization with Tableau

Integrating Excel, Power BI, and Tableau Workflows

Applied Business Reporting and Insights
