

Microsoft Azure Training Program

Empowering Professionals for the Cloud Era

- Understand the Cloud • Build Scalable Solutions • Advance your Career

Audience

Cloud computing is reshaping how businesses operate. Microsoft Azure is one of the world's leading cloud platforms, offering solutions for infrastructure, development, data, and security. This training equips participants with practical skills to work confidently with Azure—from setting up resources to deploying applications.

Ideal for:

- IT Professionals & System Administrators
- Software Developers & Engineers
- Project Managers & Business Analysts (working in tech-driven roles)
- Entrepreneurs building cloud-based solutions
- Students & graduates exploring careers in cloud computing

Course Description

The Microsoft Azure Training introduces participants to core cloud concepts, Azure services, and practical administration skills. Through hands-on labs and real-world examples, participants will gain the knowledge required to plan, deploy, and manage cloud solutions with Azure.

Course Outline

- Introduction to Cloud Computing & Azure Fundamentals
- Azure Portal Navigation & Core Services
- Virtual Machines, Networking & Storage
- Azure Active Directory & Identity Management
- Resource Groups, Subscriptions & Governance
- Azure Security & Compliance Basics
- Deploying Web Apps & Databases on Azure
- Monitoring, Cost Management & Scaling Resources
- Introduction to DevOps with Azure
- Hands-On Lab: Building & Deploying a Simple Cloud App

Includes real-life case studies, group exercises, templates, and project simulations.

Training Details

Duration: 1 day

Training Fee: N150,000
