

Power BI Mastery Training Program

Empowering Data Intelligence for the Modern Workplace

- Visualize Intelligently • Report Confidently
 - Lead with Data

Audience

Today's decisions are driven by **insight, not instinct** — and Power BI turns your data into a visual story that inspires smarter action.

Whether you're analyzing sales trends, financial performance, or operational metrics, **Power BI helps you transform raw data into interactive dashboards that tell the truth at a glance.**

This training helps you **move from Excel reporting to full-scale business intelligence**, giving you the skills to visualize, share, and automate analytics that guide real decisions.

Ideal for:

- Data Analysts & Business Intelligence Professionals
- Accountants & Finance Managers
- HR, Operations & Project Managers
- Sales, Marketing & Strategy Teams
- Entrepreneurs & Consultants handling client data

Course Description

The **Power BI Mastery Training** introduces participants to the end-to-end business intelligence workflow from data import and transformation to dashboard creation and automation.

You'll learn to connect multiple data sources, model relationships, write DAX calculations, and design interactive reports that update in real time.

By the end of this program, you'll be able to **build executive dashboards, automate reporting pipelines and share insights across teams** making your organization truly data-driven.

Course Outline

Module 1: Introduction to Power BI & Data Visualization Concepts

Module 2: Connecting & Transforming Data (Power Query in Power BI)

Module 3: Data Modelling & DAX Fundamentals

Module 4: Designing Interactive Reports & Dashboards

Module 5: Publishing, Sharing & Power BI Service Automation

Training Details

Duration: 2 Days
