

Six Sigma Green Belt Training Brochure

Driving Operational Excellence & Continuous Improvement

- Improve Processes • Reduce Waste
- Deliver Quality Results

Audience

In today's competitive business environment, organizations need professionals who can analyze processes, identify inefficiencies, and implement sustainable improvements. The Six Sigma Green Belt equips participants with problem-solving skills and statistical tools to achieve measurable business results.

Ideal for:

- Quality & Process Improvement Professionals
- Project Managers & Team Leads
- Operations Managers & Engineers
- Business Analysts & Consultants
- Professionals preparing for Six Sigma Black Belt certification

Course Description

The Six Sigma Green Belt Training provides participants with a strong foundation in Six Sigma methodology, focusing on the DMAIC framework (Define, Measure, Analyze, Improve, Control). It blends theory with practical case studies, enabling learners to lead improvement projects and support organizational transformation initiatives.

Course Outline

- Module 1: Introduction to Six Sigma
- Module 2: Process Thinking & Business Performance
- Module 3: Define Phase (DMAIC)
- Module 4: Measure Phase (DMAIC)
- Module 5: Analyze Phase (DMAIC)
- Module 6: Improve Phase (DMAIC)
- Module 7: Control Phase (DMAIC)
- Module 8: Six Sigma Tools & Techniques

Training Details
